EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brad Bertoglio on September 28, 2006.

The application has been amended as follows:

IN THE CLAIMS:

Claims 1, 24, and 25 have been canceled.

In claim 3, line 1, "claim 1" has been changed to -- claim 2 --.

In claim 4, line 1, "claim 1" has been changed to -- claim 2 --.

In claim 5, line 1, "claim 1" has been changed to -- claim 2 --.

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach nor fairly suggest a closure as claimed. The closest prior art of record is Huard (US 5,148,937). With respect to claim 2, Huard does not teach a dispensing opening in the closure cap. It would have not been obvious to one of ordinary skill in the art at the time the invention was made to provide a dispensing aperture as this teaches away from the reference's intent to reseal the opened container, thereby destroying the reference. With respect to claim 7, it would have not been obvious to one of ordinary skill in the art at the time the invention was made to provide the first and second apertures closer together as this would teach away from the reference's intent to provide a cap for puncturing a container lip seal with either the left or right hand and would not allow the cap to rest in an open configuration on the container rim as depicted in the drawings.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
